He explained his original calculations were off and corrections were presented which would require about 400 tons more of asphalt; he noted that due to this he re-verified the bids with contractors. Town Administrator Kinmond noted the gravel for the shoulders will need to utilize the Gravel CRF account. He stated he is working with the Road Agent on the Shirley Trust property, across from the old State pit, as to whether that can be utilized for taking gravel, noting so far his understanding of the will is that it can be done as long as it is not being sold for profit. Town Administrator Kinmond stated there would also be some forest management in order to get in there and will be going over it with the Town Forester as well. Town Administrator Kinmond outlined the remaining road projects and the money remaining in the CRF for those.
