

New Durham Parks and Recreation Commission

Meeting minutes/Draft

April 9, 2017

Present: Doug Perkins, Pattie Luckern, Dot Veisel,

Meeting was called to order at 9:00 AM

Issues discussed:

- At the previous meeting Department Head Hunter had presented information about MyRec.Com, a recreation management software program. This program would allow residents to register online for ongoing programs / field trips and to pay program fees by credit card. The program interfaces with the software program already in place at the Town Hall for registering vehicles, dog licensing and payment of property taxes, etc. This program would offer easier access and convenience for residents as all registration materials are online. Residents would still have the option of paying fees by check. Many redundant paperwork duties would be eliminated or greatly reduced freeing up time for the Recreation Director to devote to programming and community fund raising activities.

Move to authorize Program Director Nichole Hunter, on behalf of the New Durham Parks and Recreation Commission, to pursue a two year contract with MyRec.com from Killington VT. for \$1170 per year. Fees will be paid by the Revolving Fund. Motion made by Dorothy Veisel , seconded by Doug Perkins. Passed unanimously.

- Status update on condition of irrigation system at ball fields was discussed.
- Status update on proposed site for Community Garden was discussed.

Meeting adjourned: 9:40

Respectfully submitted,

Dorothy L Veisel
