What is Community Power?

Supply
Sources of electricity
You can choose

+

Delivery
Wires and poles
Always the utility

=

Customer
Single Bill

Municipality purchases electricity supply for residents and small businesses.
Goals are cost savings and more renewable energy.
Delivery, emergency services, and billing all stay with the utility.

5

Secure Competitive Pricing

Market Timing

Utilities have little flexibility on when to purchase power or how long to lock in. Community Power has complete flexibility.

+

Buying Power

By pooling demand across the entire municipality, we generate significant buying power. We can even team up with other municipalities.
