BATTERY ELECTRIC AND PLUG-IN HYBRID SURCHARGE - EFFECTIVE 9/1/23

Dear Municipal Agents and Partners,

On June 6, 2023, Governor Sununu signed HB2 into law with an effective date of July 1, 2023. HB2 establishes a surcharge on annual registration for electric and plug-in hybrid electric vehicles to offset the loss of road toll revenues derived from transportation fuel taxation. The new regulation requires municipal agents to collect fees, as follows:

- **Battery electric vehicles**, as defined in RSA 236:132, I, shall be assessed a surcharge of \$100.
Plug-in hybrid vehicles, as defined in RSA 236:132, V, shall be assessed a surcharge of \$50.

What does this mean to you?

- Starting September 1, 2023, vehicle types listed above will be assessed the additional charge at time of registration (prorated by number of months):
 - New vehicles
 - Renewal of vehicles listed above
 - Registration transfers
